Assalamu Alaikum

Many of us take our parents as granted and do not value them as we should. Many of our children do not realize that a lot of children in this World do not have either one or both parents. They lost them due to some natural disaster or other incidents. They miss fatherly and motherly love, care, help and affection.

Children of Hope with support and sponsorship from people like you is trying to help and support many such children in various countries for the past few years. To meet their goal they have set up a fund known as ANSAR ORPHANS FUND that we and many of our Companies have sponsored.

Children of Hope is being managed by a dedicated volunteer team of young professionals. We sincerely appreciate their efforts in this worthy cause and I request you to help and support them financially and otherwise so they can meet their objective of transforming those orphan children into educated, self sufficient, contributory and respectable members in their societies. Please donate generously now and later as well, for this ongoing project.

Thank you wassalamu alaikum.
